Come Home to Comfort™

SunTouch® brings warmth & comfort to any room. Enhance your home with an electric floor heating system that's easy to use & install.

Luxurious Yes - Expensive No

Enjoy a luxurious experience without the luxury price tag. From tile or stone kitchens and bathrooms to laundry rooms, entrances, and basements, SunTouch makes it easy to add warmth to the surfaces that surround you.

Engineered For Safety & Reliability

- Proven reputation with systems operating in thousands of homes across North America
- Built-in GFCI protection in all SunStat® Thermostats
- 25 year warranty

Enjoy picking out your favorite floor covering knowing that a wide range of flooring types can be used with a SunTouch system.

Planning for Electric Floor Heating

- Electric floor heating systems can be programmed to match your schedule or to provide continuous warmth
- Use SmartStart technology to enjoy heated floors when you step out of the shower or make coffee in the morning
- Heat tile shower floors & bench seats for a luxurious spa like experience
- Take the chill out of cold basement floors
- Create a warm welcome with a heated entrance

Turn ordinary tile & stone into radiant heating panels.

Install Anytime

The SunTouch product line includes mats that install below the subfloor in joist bays. Now you can add floor heating without replacing flooring.

Ready For Comfort?

- Ask your contractor to include SunTouch floor heating in your project plans.
- Visit suntouch.com to find a local distributor.
